

Welcome to Öster Malma

Our wildlife

WILDLIFE PARK

A wildlife park with moose, mouflon, fallow, red deer and birds in their natural environment. It is important to remember and respect that these are wild animals. Therefore, the animals are kept in large enclosures that are as natural to them as possible.

All animals here are reared in captivity, but they are still wild species. Moose is the king of the forest, and we strongly believe that it is only natural that they have access to woodland, just as it is for our red deer to have access to marshland. One tip is to bring your binoculars and visit our lookout point to survey the enclosures and spot where the animals are just then. Perhaps there is a moose lying down at the edge of the forest or fallow deer resting in the shade of some trees! Admission to the wildlife park is paid in the farm shop next to the reception in Lagårn.

THE CHILDREN'S GAME CONSERVATION TRAIL

The little wildlife trail is aimed at our younger visitors. To guess the poop, see which animals are in pots and measure your strength with an elkhorn are some of the activities along the trail. Entrance is included when buying tickets to Wildlife Park.

WILD BOAR & THE GAME CONSERVATION TRAIL

A short walk (1.5 km) through the beautiful landscape just outside the wildlife park takes you to the inquisitive and sociable wild boars. The game conservation trail offers a mile-long walk (in ordinary shoes) where you meet wildlife and learn about wild animals in the area.

ANIMALS & NATURE

The surroundings around Öster Malma are lively. We recommend a trip to Lake Likstammen, about a kilometer away, where you get a good chance to see both Osprey and Black-throated Diver. Put on comfortable shoes and explore Swedish nature - stop and watch our rich birdlife, watch the Fallow Deer graze and enjoy silence and the beautiful scenery.

Tickets are sold
